

SANJU CHOWDHURY

Aspiring Product Manager | Software Engineering Background

+91 9619594303 | <mailto:SanjuChowdhury1803@gmail.com> | [LinkedIn](#) | [Portfolio](#)

PROFILE

MBA candidate in Technology Management (Institute of Product Leadership, Bengaluru) transitioning from software engineering into product management. Combines **1+ years** of hands-on development experience with product thinking — user research, prioritization frameworks, and GTM strategy — to build data-driven, customer-centric products across India's AI/tech ecosystem.

SKILLS

Product Management: Product Roadmapping | PRD Writing | RICE Prioritization | JTBD | A/B Testing | User Research | Market Research | GTM Strategy | UX Design | Agile & Scrum | Stakeholder Management

Technical & Tools: SQL | REST APIs | Google Analytics | Advanced Excel | Power BI | Figma | Jira | Confluence | Miro

WORK EXPERIENCE

Associate Software Developer — Arroz Solutions

May 2024 – Jun 2025

- Partnered with **5+** senior engineers and product stakeholders to scope and ship **10+** features, translating requirements into technical specs across client projects.
- Diagnosed and resolved **50+** production issues, strengthening app stability and informing prioritization of technical-debt vs. feature work.
- Drove **20+** Agile ceremonies (sprint planning, code reviews), building fluency in iterative delivery and cross-functional collaboration.
- Supported API integration and database design for **3+** projects, improving delivery efficiency — experience now applied to writing clearer, engineering-aware PRDs.

Software Developer Intern — AssetCues & 500 Trips

Oct 2023 – Apr 2024

- Owned asset-monitoring modules covering **1,000+** tracked assets end-to-end, from requirement gathering to release, improving real-time visibility for enterprise users.
- Built analytics dashboards that cut manual reporting effort by **40%**, turning raw data into product and operational decisions.
- Optimized backend APIs and databases, lifting data-retrieval performance by **25%** — early exposure to balancing user needs with system constraints.
- Automated status reporting and alerting, cutting incident response time by **35%** through process and product improvements.

Business Development Executive — Retail Scan Management Services Pvt. Ltd.

Jun 2021 – May 2022

- Uncovered market opportunities via competitive intelligence and research, sharpening a strategic, market-first lens now core to product discovery.
- Converted client feedback into actionable feature requests in partnership with product teams — an early hands-on introduction to the product feedback loop.

PRODUCT PROJECTS

Karigold — Founder — 0→1 Karigar-First Gold Jewelry Platform

Jan 2026 – Present

- Identified trust and pricing gaps in India's **₹5.5L+ Cr** gold jewelry market via **100+** customer interviews and analysis of **6+** leading brands; designed a D2C model linking customers directly with certified karigars.
- Validated problem-solution fit through **50+** stakeholder interviews; defined product strategy, pricing model, and core features (HUID traceability, transparent pricing, custom design).

Nexus — Product Owner — B2B SaaS Concept, IPL Skillathon Case Challenge

2025–26

- Ranked **1st of 10 teams** by proposing a unified vendor SLA management and real-time budget dashboard, replacing fragmented WhatsApp coordination across India's **₹10,000+ Cr** MICE industry.

MyFitnessPal — Team Lead — Innovation Lab Challenge, IPL × CMR University

2025–26

- Won Best-in-Cohort (**1st of 40 teams**) by targeting **25%** higher medication adherence and **₹2,000/year** savings per employee, via JTBD interviews (**45+** professionals) and RICE-based prioritization.

EDUCATION

Institute of Product Leadership — MBA, Technology Management

Aug 2025 – Aug 2027, Bengaluru

Savitribai Phule Pune University — Master of Computer Applications

Jun 2022 – Jul 2024, Pune | CGPA: **8.0/10**
